May 24, 2011

The Honorable Rodney Frelinghuysen, Chairman  
The Honorable Peter Visclosky, Ranking Minority Member  
Subcommittee on Energy and Water Development, and Related Agencies  
2362B Rayburn House Office Building  
Washington, DC 20515

Dear Chairman Frelinghuysen and Representative Visclosky:

On behalf of the 53 organizations of the Everglades Coalition and our more than 6 million members nationwide, we write to urge your continued support for restoration of America's Everglades. We are grateful that the Appropriations Subcommittee on Energy and Water Development, and Related Agencies has helped create the recent wave of momentum and progress for Everglades restoration. As you consider the Energy and Water appropriations bill for FY 2012, we urge you to provide funding at the level of the President's budget request of \$168 million for Everglades restoration. This request will allow progress to continue on projects that are vital to the preservation of this great economic and environmental national treasure which supplies drinking water to six million Floridians.

The Greater Everglades Ecosystem is home to some of America's greatest treasures including two National Parks, one National Preserve and 13 National Wildlife Refuges. The restoration efforts now well underway will preserve and enhance this natural and economic marvel for generations to come. The request for \$163 million in construction funds and \$5 million for operations and maintenance for restoration projects will support thousands of badly needed jobs.

As the appropriations process advances, we ask you to remember that as the National Academy of Sciences has found, for the Everglades, to do nothing is in fact to do harm.

We appreciate your continued support and consideration of our request to sustain this monumental restoration effort and fulfill this monumental restoration effort.

Sincerely,

Julie Hill-Gabriel
